# Air Training Program To Be Speeded Up

## Shorter Course And More Men In Air Schools

Canada Lacks Equipment and Personnel For Projected Coast Stations, Says Minister—More Battle Training Overseas

By FRANK FLAHERTY  
Canadian Press Staff Writer

OTTAWA, Oct. 10.—A further acceleration of the air training program has been decided upon, Air Minister Power announced today. The course for pilots in the service flying training schools, recently reduced from 16 weeks to 14, will be further reduced.

## Today's War Moves

By J. W. T. MASON  
British United Press War Expert  
Exclusive to Edmonton Bulletin

General Weygand's arrival in French West Africa and General De Gaulle's presence in the African Cameroons, announced today, presage a conflict between the two ever future positions of French colonial officials in the war to liberate France from German control. The position of General Weygand, intent on fighting to uphold Hitler's authority over France, is unique in military circles.

Planners of J. W. T. Mason war, who voluntarily admit the enemy, are advised guilty of treason. There is no rule of warfare that warrants a defeated nation helping its conqueror against former allies. By putting forth powerful effort to persuade the French African officials to resist all attempts to rescue France, the Vichy regime not only humiliates but also shows poor military judgment.

The aged Marshal Petain is convinced that Germany and Italy can defeat the British Empire, though the British are supported by the United States. He has a complex about the inevitability of totalitarianism, largely through his desire to establish a totalitarian regime in France.

## LOST FAITH

Petain and his advisers have lost faith in democracy. They believe that if the French colonies do not resist, the German, Hitler and Mussolini will be content with no demerit of the French empire after winning the war.

## Few Accidents In Air Training

OTTAWA, Oct. 10.—Accidents during air training operations in Canada are comparatively few, Air Minister Power said at a press conference today.

During September, he said, pilots had 8,300 hours in the air. Accidents had resulted in the deaths of three men, or one man and seven 2,100 flying hours.

They're Learning Fast How To Be Soldiers At Camp

## LONDON GETS LONGEST OF NIGHT RAIDS

First day in camp was a busy and exciting day for the 1,000 trainees who entered the Camrose military training centre on Wednesday to begin 30 days of instruction in soldiering. The beginnings of a soldier are shown in the series of pictures above. At left they are examined by the doctors to make sure they are physically fit and in good health. In the centre, two recruits, Edward Yarashewitz of Edmonton, and Douglas Roach of Wainwright, receive their issue of kit, gaiters, ball-bags, caps, boots, three pairs of socks, two pairs of underwear, two shirts and caps. At right, soldiers new, are Robert Edgar Marshall of Bluffton, and Odo Sorenson of Viking, dressed in battle dress, their caps cocked at the correct angle. Inset is Lt-Col. R. E. Knight, V.D., commanding officer of the centre.

## Officers Impressed With Enthusiasm Of Young Men At Camp

By BOB SHAW  
Edmonton Bulletin Staff Writer

CAMROSE, Oct. 10.—Officers were impressed and gratified by the fine type of young men who enrolled for training at the Camrose military training centre on Wednesday but more especially by the eagerness shown by the youngsters to enter the school and get the training.

By the end of the day approximately 1,000 had been medically examined, enrolled and equipped with kit and half of these had received their first session of sound drill on the parade ground.

The cheerful faces around the training centre bespoke genuine enthusiasm for the instruction which they will enter for the next 30 days but there were a few discontented.

The medical examiners turned down a few and sent them home and the rejection of these lads spoke more eloquently than words of their attitude to military service.

Enrollment and equipment of the boys at the centre was put through with dispatch, under supervision of Maj. A. J. Davies, district record officer of Military Division 12. It took just 20 minutes for one man to go through medical, enrollment, and equipment from stores.

The Atlas Lumber Company of Calgary held a preliminary note out by G. C. Winstanley of Calgary for \$1000 and took action to recover the amount in the Alberta court. The defence was that the plaintiff could not proceed with the action because the company had not obtained a permit to sue from the Debt Adjustment Board.

The Debt Adjustment Act set up a board with power to issue permits and no action to recover debt could be instituted without such a permit.

The plaintiff contended it had been refused such a permit but the Alberta court held that it was a constitutional power in placing such limitations upon actions respecting promissory notes. It was a federal matter, the plaintiff argued, covered by bills of exchange act, a Dominion measure.

CHIEF ULTRA VIRE  
Mr. Justice A. F. Ewing, the trial judge in the Alberta court, held that if the debt adjustment act "purported to include within its operation the debt suit upon here, it is ultra vires of the provincial legislature." He accordingly permitted the plaintiff to proceed with the action to recover the debt from the debt adjustment board.

Many airplanes also were bombed, channel ports (the invasion bases from Amsterdam) were bombed, and the case was referred to the supreme court of Canada.

W. S. Gray, counsel for the argument today for Winstanley, H. J. Wilson is appearing for the Alberta attorney-general, W. R. Macleod, for the Atlas Lumber Company and P. P. Kavanagh, for the attorney-general of Canada.

At the same time, Air Minister Power announced that the R.C.A.F. was in need of skilled metal workers. He said, "we need all kinds of tradesmen, especially badi, but particularly metal workers."

Three persons were killed in a south Wales town during the night. One bomb hit a hotel, where a barmaid was rescued after being trapped for an hour under debris.

## FIRE-A-MINUTE FOLLOW RAIDS R.A.F. PLANES

Invasion Ports Heavily Bombed By British During Night

LONDON, Oct. 10.—Operating so swiftly that they started fires at the rate of one a minute, the Royal Air Force made one of its fiercest attacks of the war last night on the Nazi invasion ports on the coast of France, Belgium and Holland, the air ministry announced today.

In one brisk attack on Boulogne alone, Blenheim bombers of the coastal command dropped three tons of high explosives.

SCOPE INCREASED  
There is a railway station and a warehouse on the quay near Port de Mares, the announcement said, and one British pilot, seeing two black smoke on the water which looked like barges tied bow to stern near the quay, went down with a salvo which sank wreckage high in the air.

The air ministry said the R.A.F. had increased the scope of its night raids, and had penetrated far into Germany to blast away the German war machine.

Three German destroyers in the harbor at Brest, at the western extremity of Brittany, were hit. The planes went in the face of intense anti-aircraft fire, but, unaided, succeeded in working patterns of bombs back and forth across the harbor.

NEW PLANES USED  
Other damaged ships and buildings in the old French seaport base, the planes which made this raid were abreast of the fleet air arm. These are newly-activated to the brass of the service and their performance is still a secret. They are three-motors, designed primarily as bomber and reconnaissance ships.

Among the targets bombed were an oil plant and munitions factory at Colmar, aluminum works at Grevenbroich, the Krupp munitions works at Essen, Le Havre, and an electric power station at Reims.

Railway communications and goods trains (freight yards) at Dusseldorf, Cologne, Lonscheid, Garmisch, and Bremen were bombed, the communique said.

"Many airplanes also were bombed, channel ports (the invasion bases from Amsterdam) were bombed, and the case was referred to the supreme court of Canada."

At the same time, Air Minister Power announced that the R.C.A.F. was in need of skilled metal workers. He said, "we need all kinds of tradesmen, especially badi, but particularly metal workers."

Three persons were killed in a south Wales town during the night. One bomb hit a hotel, where a barmaid was rescued after being trapped for an hour under debris.

## Pacific Area Defence Plan Is Announced

British Columbia and Alberta Joined In New Move—Maj.-Gen. R. O. Alexander Will Head Command

OTTAWA, Oct. 10.—Creation of a Pacific military command to include the provinces of British Columbia and Alberta was announced today by Defence Minister Talbot. He also announced Maj.-Gen. R. O. Alexander of Toronto will head the command.

The command will serve the same function in the Pacific area as the Atlantic command serves in the east. The latter was established some time ago and is headed by Maj.-Gen. W. H. P. Elkins.

The new command will be responsible for all coastal defence forces through future and sea commandery and will also direct the operations of the mobile and land forces which may be directed to the defence of the Pacific coast.

In addition it will be responsible for internal security measures and the protection of all valuable points which are defined as military responsibilities.

Maj.-Gen. Alexander, a slim, grey-haired officer with distinguished record, goes to his new post from that of district officer commanding Military District No. 2 with headquarters in Toronto. In that capacity he has been supervising the training of military training establishments at Camp Borden.

After the war he continued to serve in the permanent force and attended the staff college at Camberley, in Montreal and in Winnipeg.

In 1935 he was promoted to the rank of Major-General and took over the Toronto post. He was promoted to the rank of major-general early this year.

150 MILLION TO BE SPENT ON NEW TANKS  
OTTAWA, Oct. 10.—Designs of a new type of tank are being completed and production is under way to manufacture 3,000 in Canada, Supply Minister Howe announced today.

The total output now planned will reach approximately 150,000. It is understood the new machine will embody the best features of Canadian and United States tanks of a medium size, cruiser type, and that details have been made public.

Mr. Howe said the tanks will be manufactured in a Canadian plant or plants. It was not said whether the stage where he could make a formal announcement.

It has been known for some time that departmental experts were engaged in designing a Canadian tank to be manufactured here for the Canadian army.

Tentative plans are for Canada to feature 1,200 of the new tanks while the remainder of the order is to be manufactured for the British government.

Ban Oil Delivery  
NEW YORK, Oct. 10.—The Berlin radio broadcast a Banheist declaration, announced it was officially announced that deliveries of Russian oil to Germany and Greece were to be discontinued.

## CANADIAN PRESS WRITERS ESCAPE GERMAN BOMB

**By HAROLD FAIR**  
Canadian Press Staff Writer  
LONDON, Oct. 10.—If the German raider who dived with his engine shut off early this morning had waited for another fraction of second before releasing his bomb,

Three eggs which tumbled from the belly of the bomber landed a few feet from the central entrance toward of a big block of flats in which live the half dozen whom his wife is standing on end.

Another one landed 25 feet from two "Canadian Press" apartments. The other two landed in the front of King, Ont. and his wife, who is secretary of the CP bureau. The other is shared by D. E. Burrill, Toronto, Douglas Amaran, Montreal, Louis Hunter, Quebec, and the still unnamed man who lives in the flat.

The residential building hit today was one of the largest apartment houses in London.

Outside of a little plaster and dust in the hand and a few bruises marked the bodies of the four who were tumbled out of beds that swayed like ship berths, all hands are all right.

physically "in the pink."

## JAPS INQUIRE IF U.S. WANTS TO ENTER WAR

---

TOKYO, Oct. 16.—Japanese newspapers today interpreted United States advice to Americans to leave the Orient as a prelude to greater

Newspapers said the withdrawal advance was a shock to American residents of the Orient and claimed the United States also was considering removal of all marines from China.

In this connection, Yamamoto said

ed Japanese military men in China as saying: "If the United States makes a wholesale retreat in the Far East, it should be prepared to have its rights and interests there suspended or abandoned, at least temporarily, and it is supposed that recovery of those rights will be somewhat difficult in the future."

**British Planes Bomb Ethiopian Railway Tracks**  
 British Union Press Exclusive Cable  
 The London Bulletin

VICHY France, Oct. 10.—French dispatches from Djibouti, capital of French Somaliland, reported today that British planes had bombed the Djibouti-Addis Ababa railway in Ethiopia, destroying a station and tracks and halting traffic.

It was said that the British have raided the railway frequently, hampering the Italian army operating in southern Ethiopia against the British Crown Colony of Kenya. This army is dependent upon the railway for supplies.

Unofficial Djibouti dispatches said that in addition to destroying tracks

**Papers Of Moscow  
Ignore Statement  
Of Mr. Churchill**

MOSCOW, Oct. 10.—Prime Minister Churchill's declaration in the House of Commons Tuesday that the Japanese-German-Italian alliance was in a secondary sense "pointed at Russia" was ignored by the Soviet press.

Published prominently, however, was an article in the *Pravda* newspaper.

Shigenori Togo, who has been Japanese ambassador to Moscow during the years of strain between the two countries, arranged during the day to leave Oct. 17 for Tokyo. His successor, Gen. Yoshitatsu Tatekawa, a retired army man known for his sympathy for Russia, is expected Oct. 21.

## LIVER BILE—

And You'll Jump Out of Bed in the Morning Rinin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas floats up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks lunk.

A more bow'l movement doesn't always get at the cause. You must make that work on the liver as well. It takes three good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel fine and fit and happy and gentle. They make the bile flow freely. They

## LONDON TUBES PROPOSED AS RAIDSHELTERS

Nearly Million Banks To Be Delivered Early Next Week

British United Press Exclusive Cable To The Edmonton Bulletin.  
LONDON, Oct. 10.—The Home Secretary Herbert Morrison tonight today that London's entire subway system may be taken over to provide winter air raid shelters for the population.

That indication was given in a discussion of air raid problems in the House of Commons.

Morrison said that wooden and steel bunkers will be built in existing shelters and the subway system, but indicated it was not likely that a new system of deep shelters will be constructed as has been suggested by critics of present accommodations.

**DEEP SHELTERS**  
"The whole tube accommodation is being surveyed," he said, "in order that the best use may be made of it. The possibility of providing deep shelters for the whole population has been given serious consideration. Glasgow and Greater London is very doubtful but I will look into the whole matter with a perfect free mind."

Morrison said contracts had been placed for 700,000 bunkers and that deliveries were expected next week.

He said that the design for a code of order for shelter use was being evolved.

Steps probably will be taken, he said, to establish a code of control over manufacture and supply of cement and bricks and possibly one or two other articles, so that prices will be controlled under the government's vast war powers.

Despite these plans, Morrison indicated that the government will leave unessential elements of the population should be evacuated from danger points.

"Don't let's encourage the idea that there is safety in numbers," he said. "There is greater safety in dispersal."

## MONTHLY QUOTA PRODUCTION IN TURNER VALLEY

CALGARY, Oct. 10.—Robert E. Atwood, from California, recently appointed chairman of the Petroleum and Natural Gas Conservation Board, in an order released last night announced a new limit of government production in the Turner Valley field, effective this month.

Under the new system, each of the 118 producing crude wells is given a monthly maximum production quota. Formerly, a daily quota was provided, and production was given on a day-to-day basis. Now, a well need not produce the same amount of oil each day, but must not exceed its maximum over the month's period.

The order is retroactive to October 1, and governs production from 8 a.m. to 8 p.m. November 1. Other orders will be issued governing production for November and the month thereafter.

October's maximum production is set at 750,000 barrels, a daily average of 23,800 barrels, orders at previous order, maximum daily production was 30,857 barrels.

**NATION GIVES  
INCREASINGLY  
TO RED CROSS**

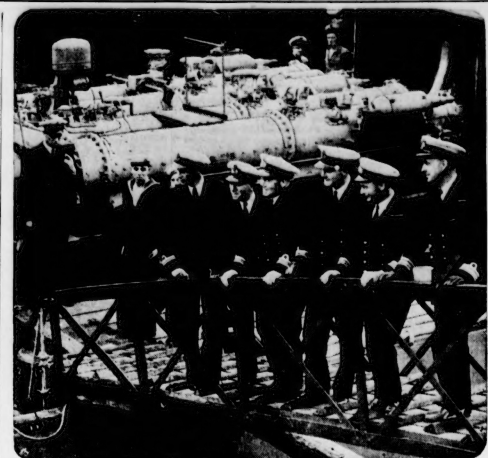

TORONTO, Oct. 10.—Dr. Fred W. Routley, national commissioner of the Canadian Red Cross society, announced tonight that the society has realized \$230,000 more in its Dominion-wide appeal for funds. The objective is \$5,000,000.

"We are \$400,000 ahead of the amount received in the same period last year," Dr. Routley said. "The province of Alberta did not begin its campaign until Oct. 14 and the appeals of many towns and cities in some other provinces have been delayed to meet local conditions."

Ontario leads the provinces with a total of \$1,700,000 collected during the past two weeks since the drive started. The Ontario objective is \$2,400,000.

Quebec and Prince Edward Island have topped their objectives. British Columbia reported \$300,000 in funds and totals for the province thus far include: Manitoba, \$249,000; Saskatchewan, \$60,000.

**Writer Dies**  
REDFORD MILLS, N.Y., Oct. 10.—Miss Katherine Gray, 72, author of "The Girl in the Red Coat," died at her home Wednesday after a long illness.

Canadian Officers Inspect Their New Commands

On the gangway to one of the U.S. destroyers turned over to the Canadian Navy, the six Canadian officers who will command them survey their new ships. Left to right they are: Lieut. M. A. Moland, Toronto, who will command the "St. Croix"; Lieut.-Commander D. C. Wallace, Pictou, N.S., the "St. Clair"; Lieut.-Commander H. P. Pallen, Oakville, Ont., the "St. Francis"; Lieut.-Commander K. L. Armstrong, Quebec, the "Niagara"; Lieut.-Commander S. W. Davis, Trail, B.C., the "Columbia"; and Lieut.-Commander H. Kingley, Vancouver, B.C., the "Annapolis."

## Today's Communiques

LONDON, Oct. 10.—The air ministry issued the following communiques today:

"German bombers directing their attacks again on London and surrounding areas, but no reports of damage. Bombs were dropped in the north-west of England and in south Wales. Fires in the London and suburban areas were reported. Bombs were dropped in the north-west of England and in south Wales. Fires in the London and suburban areas were reported. Bombs were dropped in the north-west of England and in south Wales. Fires in the London and suburban areas were reported."

"Reports of casualties are not yet complete. A number of people were injured, some fatally, in a building in London which was hit by a high explosive bomb. No reports of any large number of people killed or injured have been received from any quarter."

"Bombing districts of southwest England and in one town of South Wales caused damage to houses. The number of casualties was not large but some persons were fatally injured. In southwest England several casualties are reported from one district. Elsewhere very few persons were injured and the total damage was very slight."

"In a northwest town and the surrounding districts a number of incendiary bombs were dropped but there were no reports of damage. There have been no reports of serious damage. The number of casualties was very small."

LONDON, Oct. 10.—The air ministry issued this communique today:

"Royal Air Force bombers made daylight attacks on an oil plant at Hamburg, on barges and bridges at the canal junction at Arna, Paderborn, south of Hildesheim (in Holland), and on railway sidings near Warendorf and Hamburg, and on the Texel aerodrome."

"A daylight attack also was made on shipping at Le Havre. One of our aircraft has not reported to us its results."

"During the night our bombers, although hampered by severe weather, carried out attacks on widespread industrial and military objectives in Germany and enemy-occupied territory."

"The industrial targets included an oil plant and munitions factory at Cologne, the aluminium works at Grevenbroich, the Krupp works at Essen, and an electric power station at Reibels."

"Railway communications and docks yards at Gernsbach, Cologne, Konigsheide, Düsseldorf, Westel were also bombed. Several aerodromes also were bombed."

"The channel ports from Amsterdam to Le Havre were again attacked. Aircraft of the fleet air arm, operating with the coastal command, were engaged in attacks on ships and workshops at Brest. His results were not reported."

"One of our aircraft was not reported to us."

## CANADA TURNS OUT WORK FOR BRITISH NAVY

Dominion Supplements Production Of Essentials To Keep Fleet Afloat

By FRANK FLAHERTY  
Canadian Press Staff Writer  
OTTAWA, Oct. 10.—The Canadian navy is now turning out many of the things that help make the Royal Navy a fighting unit. The middle-aged men who will be the backbone of the fleet are now being trained in the United States.

Vice-Admiral Alfred E. Evans, of the Royal Navy, has much to do with this development. He is chief of the British admiralty technical staff in Canada and is co-operating with Canadian industry and Canadian naval headquarters in encouraging industrial developments along lines never touched before in the Dominion.

Once the United Kingdom with its great shipyards, armament and ordnance plants supplied needs of the navy of the British empire, including the Canadian navy, as well as many non-empire fleets.

Now it is necessary to supplement British production and to create a time create alternative sources of supply out of range of enemy bombing.

NEW KNOX  
Few Canadians know it, but thousands of British ships and submarines have been built in Canadian factories. This was the Royal Navy's answer to the German magnetic mine. It takes many miles of cable to outfit a single ship.

"Every war produces new weapons and we have to find the antedote for them," said Admiral Evans yesterday. "The magnetic mine is the only new naval weapon produced by the Germans so far in this war, and it didn't take the navy long to find the antedote."

Associated with Admiral Evans on the technical mission are experts in various lines of naval equipment—guns, signal equipment, compasses, munitions, fire control gear. When the admiralty suggests a certain article is needed, the appropriate technical officer from the mission consults an officer in the Canadian department of munitions and supply to learn of likely sources.

Then they usually travel out to see a factory which might be able to produce the article. As far as possible orders are placed in Canada, particularly when capital expenditure is involved. It is not possible to get the article produced in Canada, however, the British purchasing mission in New York is consulted to get the article in the United States.

CONTROL GEAR  
Some of the most intricate equipment used in the navy, such as the gun gear for guns and torpedoes, is now being made in Canada. Torpedoes, which drive torpedoes through the water at 80 miles an hour are about the size of a small car. The British hopes he will soon be able to get complete torpedoes here, as well as the gun gear which may be made at one of Canada's new armament factories.

It takes time to get production of naval equipment under way, but the Vice-Admiral said he finds Canadian firms most helpful.

"Really, I don't think the industrial capacity of this country, especially in Canada, has been more than scratched," he said. "We have only been here two months, and things are going much faster already. Our machine tools are a bottleneck, but given tools are many Canadian plants which can produce much more of the equipment we need."

He said the anti-submarine patrol boats are now getting their repairs in Canadian waters. Admiral Evans said they will be most useful in the North Atlantic. "We will be out of the St. Lawrence River before the freeze-up."

EDUCATION IS  
BEST FOR BOYS  
MINISTER SAYS  
OTTAWA, Oct. 10.—Labor Minister Norman McLeod said Wednesday that "war needs must come first" but parents would be better advised to let their children go to school. He said that before leaving children from 14 to 18 years of age to leave school and go to work.

In a prepared statement, Mr. McLeod said that the first step was to get the children out of school. He said that the second step was to get the children out of school. He said that the third step was to get the children out of school.

OTTAWA, Oct. 10.—Interment officials said last night they would investigate reports from St. Anne de Beaupre, Que., that seven German priests and seven German soldiers were being held in the shrine of St. Anne de Beaupre.

"If we find the reports are true we shall take disciplinary action against those responsible," they said.

The officials said some German priests and some German soldiers were being held in the shrine of St. Anne de Beaupre, Que., that seven German priests and seven German soldiers were being held in the shrine of St. Anne de Beaupre.

Calgary Man Dies  
In House Shortly  
After Fumigation  
Film Censorship  
VICTORIA, Oct. 10.—The Pelton-Laval government decided Wednesday on severe censorship of motion pictures shown in the province for use in France or for export to avoid any demoralizing influence on French youth and to show the true picture of the "true aspect" of France.

## LARGE ORDER AWARDED FOR NAVAL CRAFT

Six Powerful Minesweepers To Augment Canadian Navy

OTTAWA, Oct. 10.—Placing of a \$3,000,000 order for six large steam-driven minesweepers for the Royal Canadian Navy was announced Wednesday night by Maritime Minister C. D. Howe.

The six vessels, costing close to \$500,000 each, will be built by Canadian firms. They are the same type as those presently being constructed in Toronto and Vancouver.

Several of these ships have already been launched and the additional order for minesweepers brings to 18 the number of vessels included in Canada's major shipbuilding program.

Total some involved in this program are now well above \$80,000,000, the minister said in a statement.

In all, 24 minesweepers are being constructed in Canada for the Royal Canadian Navy, 10 corvettes for the Royal Navy, and 34 corvettes for the Royal Canadian Navy. A very interesting statistical picture of this total of 68 ships will have been launched by the end of this year, the statement said.

**War Prisoners**  
SEVENTEEN of 118 Westmontford soldiers reported missing early in the war in Germany. Most of the missing and prisoners were members of a company of the 10th regiment ambushed by the enemy during fighting in France.

# Looking Them Over

By Jack Kelly  
Good Tonic  
Must Be Tops  
Grid Date

YOU can take the word of an expert for it that the 30 days of army training that several thousand young Albertans are launching into today will do them more good than anything that has happened to them for a long time.

The expert referred to is Mike Cutcher, now Private Cuthbert of the 15th Forestry Company which Major R. R. Pointier has organized from among northern Alberta's heavy lumbermen. Mike comes in last night to tell me how things are coming along for the wrestling and boxing show which his company will stage in the Empire theatre next Tuesday.

Mike has no claim to knowledge of army matters, but for 17 years he has acted as a physical training instructor at the Y.M.C.A. here and developed a score of boys who won championships in amateur wrestling. He's an expert on PT—and a point guard in the art of treating sore feet.

"Every day I see boys in uniform that I used to train at the Y," Mike explains. "They were just army men, all stooped over, no chest, slouchy walk, no pep at all. Now they are great big fellows, big chests, they walk straight with their heads up, swing their arms, their eyes are clear, they get good color in their faces and they have put on lots of solid weight."

"It would be the best thing that ever happened if every young fellow had to train in the army for two or three months a year, even if there was no war," Mike declared. "It would make them into the finest men in the world. I've only been in the army a little while, but I'll bet none of these boys will regret the 30 days of camp training will be any sorry for it."

**Fine Card Shaping Up**  
PRIVATE CUTCHER, assigned by his commanding officer to the job of lining up boxers and wrestlers for the benefit show, has his heart set on "giving the customers the very best." No one gets any money out of this benefit, except the Edmonton Spire Fire Fund. Boxers and wrestlers, officials—everyone is donating his services free. Mike confesses that he wants to put this card over big far more than he ever wanted to put over any show of his own when he was promoting boxing and wrestling here. Every one in his company is getting behind it, determined to show that the 15th Company of the Canadian Forestry Corps does its job right.

Just now the need is for good boxers. Mickey McGill, an American boy who came up here and joined the 15th Company in getting into the war, is the winner of a Golden Glove trophy and will be one of the headliners. Eddie MacSparran, former middleweight champion of western Canada, has also volunteered his services. Any boxer who is willing to help lick Hitler by boxing a few rounds on this card is asked to get in touch with Frank Heller, Nervous Printing Company.

The wrestlers appearing on the program will be some of the popular men who have been seen at the Memorial Hall pro bouts in the past. Mike expects that two of the wrestlers who used to work under his promotion will be coming in from the coast at their own expense to help put the show over and several others are expected in from various parts of the west. The list of contestants will be released on Saturday.

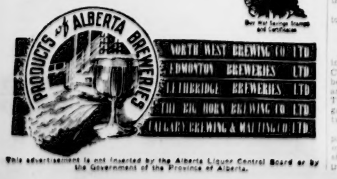

In the meantime, why not make up your mind to help put another Spire on the list of Nazi bombers by attending this big ring jamboree at the Empire theatre next Tuesday?

## Junior Football Billed Friday

NEXT night when the Edmonton sport program is football at Clarke Stadium. Friday night when the South Side Spiders and Maple Leafs of the City Junior League will battle in a game that promises to be a hot one. Leads into the league opener to the Spiders 10-4 and then on Tuesday, in the meantime the Spiders took a close 17-15 win over the E.A.C. Those scores seem to indicate that the Leafs are about ready to hand the South Side their first defeat of the season.

**BEER is my drink**  
MODERATION IS MORE IMPORTANT THAN EVER!  
With the building trade working against time to house Canada's fighting forces before winter, beer, the beverage of moderation, is the popular drink for restoring energy and maintaining peak efficiency.

# Eastern Champions Tie Up Dominion Lacrosse Series

**Burrards Draw First Blood In Mann Cup Finals**

Vancouver Burrards drew first blood when they romped off the floor of Maple Leaf Gardens in Toronto with a 14-5 victory over St. Catharines Athletics in the first game of the Mann Cup Finals. Champions of western Canada, Burrards finished the game with a thunderous last minute drive to score six goals and wipe out the lead that the Athletics had held throughout the three-quarters of the game. Pittsburgh (11) of the Athletics, and Johnny McDonald (14) of the Burrards, sprawled on the floor as Athletics made a drive on the Burrard goal.

## VICTORIA HIGH DEFEATS TECH BY 16-8 SCORE

VICTORIA high school scored a 14-8 victory over Technical in the 1940-41 football season. The game was played at the Victoria high school stadium. The game was a close one, with both teams showing excellent play. The final score was 14-8 in favor of Victoria high school.

## Cincinnati Victory Gives Game New Life

BY JUDSON BAILEY  
Associated Press Sports Writer  
NEW YORK, Oct. 10.—The best thing that could have happened to baseball was the victory of Cincinnati Reds in the world series. They made a "National League year" out of 1940 and restored the game to the competitive status. Even the American League didn't protest that the old one-sidedness was getting unhealthy.

## NEWARK TAKES LITTLE SERIES

NEWARK N.J., Oct. 10.—Kunkel, pitcher Steve Peak, who won 15 of his last 16 games for the Bears during the regular season, set Louisville Colonels down with six hits while Newark team mates pounded starter Charlie Wagner and turned out a 2-1 score before 4,000 fans in Ruppert stadium.

## PIMLICO SEEKS HORSE OF YEAR

BALTIMORE Md., Oct. 10.—The Maryland Jockey Club announced Wednesday the seven outstanding horses of 1940 had been invited to race Nov. 1 in the Pimlico Special to determine the outstanding horse of the year.

## WANKER RULE ROOMERANGS

The Tigers are now handicapped by a reconstruction problem. Their infield is creaking with age and Charles Gehringer, like Wankers, and afterward he was worn out as a player. But the rule that the American League clubs started to break up the Yankees by preventing the pennant winner from trading with other clubs except through waivers now is becoming a problem at Detroit.

## Costly Tomatoes

CLEVELAND, Oct. 10.—For hurling tomatoes at Detroit outfielder Hank Greenberg during the Tigers-Indians game here Sept. 27, James Guerra, 25-year-old journeyman, received today a maximum disorderly conduct sentence of 30 days and a \$50 fine. Guerra said he would appeal.

## To Build Rink

Exclusive to Edmonton Bulletin  
MIDLAND, Oct. 10.—A rink has been chosen and work will start within a few days on a skating rink. Plans call for the rink to be completed by the beginning of winter.

## JUNIOR FOOTBALL

Clarke Stadium  
FRI., OCT. 11, 8:30 p.m.  
South Side vs. Maple Leafs

## Vancouver Burrards Beaten by 15-5 Count

By DICK SHERIDAN  
Canadian Press Staff Writer  
TORONTO, Oct. 10.—A rejuvenated St. Catharines senior lacrosse team jumped back on even terms with Vancouver by scoring an easy 15-5 victory over the Pacific coast team in the second game of the Mann Cup series here Wednesday night.

## WHITE WINGERS OUTSMART COPS

NEW YORK, Oct. 10.—The baseball team of the department of education using an 8-1 triumph on the city police department the other day, and some of the boys didn't like it.

So there was a little investigating. Wednesday it developed that Francis J. Nikola, former New York Yankee and Toronto Maple Leaf pitcher, was the sanitation department's hurler.

Nikola and 13 other ball players were taken into the department of education in the spring of 1939 at \$1,000-a-year salaries. There were many other applications for the job and a city council committee is investigating the circumstances under which the athletes were performed.

Star witness today, Nikola and the committee would be pleased to show "shovelled garbage" in addition to pitching baseball.

Roy Cavallini, Theat. Matheson, Brooklyn.  
St. Catharines sub F. Madson, Hope, Myers, Morin, Teather, Orlowski.  
Officials: Max Pearl, Port Calhoun; Bruce Leighton, Toronto.

# PROCEDURE AT NEXT SESSION UNDER REVIEW

Prime Minister, Opposition Leader Exchange Views On Subject

OTTAWA, Oct. 18.—(AP)—Communications are under review in the House of Commons today. Prime Minister Mackenzie King and Opposition Leader R. B. Bennett are to discuss the procedure to be adopted when parliament meets Nov. 5.

Prime Minister King announced last week that Nov. 5 because it was adjacent to a holiday, the date of the meeting would be postponed to the 12th. King said that the date of the meeting would be postponed to the 12th. King said that the date of the meeting would be postponed to the 12th.

WINS SCHOLARSHIP

John F. Whitaker, winner of the Canadian Pacific Railway annual scholarship award, is pictured here. He is a student at the University of Toronto.

## NOTED MEDICAL MISSIONARY OF LABRADOR DIES

CHARLOTTE, N.L., Oct. 18.—(AP)—Dr. Wilfred Grenfell, 72, who for nearly half a century brought spiritual and medical comfort to the Eskimo, Indian and fisher folk of Labrador, died Wednesday night at his home here from a heart ailment.

# HYDRO POWER IS DEVELOPED AT FAST RATE

By R. K. CARNEGIE

OTTAWA, Oct. 18.—(AP)—New water-power installations in Canada during 1940 will develop more than 250,000 horsepower of electric energy, according to figures released last night at the mines and resources department.

The work is being done at a rapid pace. The power is being developed at a rapid pace. The power is being developed at a rapid pace. The power is being developed at a rapid pace.

# Traffic Safety Tips For Drivers, Walkers Are Issued By Police

Chief Const. A. G. Shute Wednesday called attention to suggestions for motorists made by Howard M. Baker, traffic engineer of the Montreal police department.

Chief Shute states the tips should be memorized by Edmonton motorists anxious to make this city safer for both drivers and pedestrians.

**SUGGESTIONS**

Here are the suggestions:

First and foremost give the proper arm signal before making a turn.

Next, get in and stay in the proper lane when making right and left turns.

Get in and out of your car on the right side, nearest the curb.

Do not park too close to corners as you block every one's view and seriously increase accident exposure.

Be sure you have the right of way before proceeding.

**GIVE SIGNAL**

Always signal your intention when pulling out from the curb.

Don't try to jump the amber light at a signalized intersection; there very possibly is another chap who has the same right idea.

When you are urged to double park, just stop in between cars who thought of other people who double parked when you were driving along.

**PEDESTRIANS**

Then there is the pedestrian aspect which are some safe walking rules:

Of course the most important is to cross only at intersections. Our facts prove that happened to people less very who did not.

Then, cross only on the green signal light, look in both directions before stepping off the curb.

While waiting to cross stand on the curb and not on the street.

**DON'T RUN**

Walk, do not run across the street, on highway, walk facing traffic and wear light colored clothing at night.

Before alighting from a street car, use time to look the traffic is clear.

Never step out carelessly from behind.

## SCATTERED DEFINITIONS

MISSING ALPHABET

ABCDEFGHIJKLMNOPQRSTUVWXYZ

Every letter of the alphabet is to be used once only, in this ALPHABETIC.

The shaded squares represent vowels. Definitions are given for all each word but you must guess which is horizontal, which is vertical, and where each belongs, and use each letter just once. Three letters are already in place.

**DEFINITIONS**

Acknowledge. Vault. Freshly cut. A. Regalised. To bend. A vine. A mammal to jostle.

Solution: tomorrow.

**Vertical**

**Brigade Major Takes Over New Military Post**

Arriving from Britain Wednesday night, his new duties as brigade major of artillery for the third Canadian division, C.A.S.F. Maj. W. S. Ziegler is visiting his mother, Mrs. W. G. Ziegler, for a week before taking over his new post.

Maj. Ziegler, who was overseas as a captain when the war broke out, has had years of experience in the military and was competing his engineering course at the University of Alberta before hostilities. He said that every Canadian with whom he came in contact over there wanted to get where he could contact his father's forces. They were all waiting for the chance to get at Germany. He remarked that the British military was very A.P.C. and are doing a really fine job.

He also said that Canadians could not get enough Canadian cigarettes. "Our last week some smoke from them," he said.

Bombs dropped outside the Canadian lines, but inflicted no serious damage. A direct hit has been made in almost every town before the damage is serious. He says that it still takes a lot of time to get to find any of the damage that has been inflicted on London.

# Vote List Revision

Revision of the Edmonton voters list for the civic election in November will start on Friday evening and will continue until October 12, 1940, according to Thomas Walker, city auditor, Wednesday.

Walker said that the city's supreme court of Alberta, will sit in the auditor's office each evening between 8 and 10 p.m. to add names left off the list and to make necessary changes where voters have changed their addresses since the lists were compiled.

He said that the city's supreme court of Alberta, will sit in the auditor's office each evening between 8 and 10 p.m. to add names left off the list and to make necessary changes where voters have changed their addresses since the lists were compiled.

# 52 Northerners Arrive In City To Join C.A.S.F.

Fifty-two men from northern Alberta arrived in the city Wednesday as recruits for Canada's active service.

Under the direction of Lt. Col. Louis Scott, D.C.M., who recruited the men from Fairview, Weyburn and Peace River during the war, the contingent includes lumber experts for the forestry corps, which reached over-land, and the weekend-end and the rest are assigned to Edmonton's Fusiliers M.G. The latter group brings the total to 200 men of the required training.

Total number of men enlisting at northern towns during Oct. Scott's trip was 118 men.

# Barbers Meet

At the Alberta Barbers Association's annual convention at Calgary recently, W. A. McKinnon, Edmonton, was elected president. The other Edmonton delegate was J. W. Gellinger.

# Constables Will Watch Smokers On Street Cars

If you are one of those who seek a lift early in the morning from a pipe or cigarette while on the way to work about one of the city's public transportation units, watch closely where you connect with Mr. Laid's Nicotine.

Following complaints from many passengers the street railway officials, Chief Const. A. G. Shute ordered a considerable detail to enforce conditions on early morning street cars.

A Ransom rode on blue and white cars operating between the north-east and west and the downtown area on Wednesday morning between the hours of 6 and 8 a.m. and in that time he took the names of 21 males, guilty of smoking in other than the rear portions of the cars.

One man failed to have a regulation card on his person and as a result will probably face a charge under the National Resources Mobilization Act.

Practice of smoking in other than the rear areas of the cars will also be a court appearance in the near future, Chief Shute stated.

A city boy believed smoking in a street car in other than the rear portion of cars set aside for smokers.

# Fine Fall Weather Is Forecast Today As Mercury Climbs

With the daily brown of autumn, bright colors and a few more leaves on the ground, the weatherman reports today a forecast of "fair with not much change in temperature."

Lowest temperature, Thursday was 37, climbing to 40 above at 8:30 a.m. Wednesday's high was 39 and the low for the day was 36.

Barometric pressure at 8:30 a.m. this morning was 30.74 unsteady.

The weather in the north is clear and calm, with light showers at Peace River and thick smoke at McMurtry.

# Manslaughter Case Set Over On Wednesday

Barl F. Smith, charged with manslaughter as a result of the traffic death of John MacKay, fatally injured at 101 street and 100A avenue, last week, had hearing of the charge on Wednesday.

Learn from a report in the police court Wednesday.

Adjournment was granted at the request of Crown Prosecutor C. G. P. K. K. because of the absence of Det. William McDonald, crown's officer. Det. McDonald is absent from duty in the death of the weekend of his wife.

Adjournment was granted at the request of Crown Prosecutor C. G. P. K. K. because of the absence of Det. William McDonald, crown's officer. Det. McDonald is absent from duty in the death of the weekend of his wife.

# Henry Birks Is Business Visitor

Henry G. Birks, managing director of Henry Birks and Sons Limited, nationwide jewellers, was a business visitor here Thursday.

Birks was returning to Montreal after spending a week in Vancouver.

# Garneau School To Entertain At Tea, Concert Tomorrow

Garneau school will hold its annual tea and concert on the afternoon of Friday, October 11, commencing at 3:30 o'clock. Tea will be served in the foyer of the school.

Mr. G. R. F. Sheppard, principal, will join with other teachers in the afternoon of Friday, October 11, commencing at 3:30 o'clock. Tea will be served in the foyer of the school.

# New Recruits

Twenty-four recruits for the Edmonton Fusiliers, C.A.S.F., arrived in Edmonton Thursday morning from Calgary. The unit is nearing full strength.

# HOMES CHECKED BY FIREMEN IN FALL CAMPAIGN

While city firemen, in a special campaign, are checking for fire hazards during Fire Prevention Week, the following simple suggestions are brought to the attention of members of all Edmonton families in order that homes may be made safer.

Put lighted matches and smokes, not before you throw them away. Keep matches, where small children cannot reach them. Never smoke in the garage, barn or attic, nor in bed.

Remove rubbish, waste papers and all necessary combustible materials. Provide metal ash and trash cans. Burn rubbish only in a safely covered brick or metal incinerator. Watch the fire.

# CLAIMS AGAINST FARMERS' GRAIN WAIVED BY RULING

Claims against farmers' grain, made by the local Veterans' Association, have been waived by a ruling of the court.

Should the marketings exceed five bushels per acre, it is possible that municipal areas would take steps to make collection for taxes or other charges, after making allowance for the department of municipal affairs.

An order-in-council passed recently by the provincial government suspended the priority of certain charges against farmers' wheat and also decided that threatening and other costs would be the first charges against deliveries of this year's wheat crop.

# M.H.O. Reports To City Health Board

Routine matters occupied the attention of members of the Edmonton health board at meeting held at the Civic Block Wednesday.

Dr. M. Little, medical health officer, presented his report which was adopted without discussion. This report showed Edmonton has been comparatively free from contagious diseases throughout the summer.

# Oil Well Drilled

The Guardian oil well at Bonanza, northwest of Grande Prairie, has been drilled to a depth of 4200 feet, and a production test will be made, according to officials of the provincial department of lands and mines.

Robert E. Allen, chairman of the gas conservation board, accompanied Hon. N. E. Tanner, minister of lands and mines, on a northern tour recently, recommended the test.

# Have You Seen

Whereabouts of George H. Wyatt, former Edmonton resident last seen wearing dark blue check suit, brown shoes, hat and black tie, is being sought at Salvation Army headquarters here. Wyatt is five feet 11 inches tall, weighing around 150 pounds, with gray hair, brown eyes and spectacles.

Mais Olson, born in Gaget, Sweden, October 13, 1879 is also being sought as important information available from her. Olson is of medium height, with blue eyes and was last heard of in Edmonton in 1932.

Information regarding the present whereabouts of these two men is earnestly requested by Major E. T. W. Watkinson of the Salvation Army headquarters, Edmonton. The telephone number is 2625.

# Rehabilitation Of Returned Men To Be Discussed

To lead a discussion on the question of rehabilitation of returned soldiers, Walter S. Woods, Ottawa, chairman of the Veterans' Allowance Board, will arrive in the city Saturday. A meeting will be held at 10 a.m. in the hall of the Chamber of Commerce when representatives of the Veterans' Bureau will discuss the matter.

Dr. G. F. McNally, deputy minister of education, representing the provincial department of education, Mark Robertson, of the Alberta Employment Bureau, Alfred Farnham, of the Trades and Labor Council, Andrew Menzies, of the pension department, R. Kerr of the local Veterans' Allowance Board, Howard Stenhouse of the Canadian Manufacturers' Association, John Blue, secretary-manager of the Edmonton Chamber of Commerce and other representatives, and Reg T. Rose, representing the Y.M.C.A., Mr. Rose will be chairman of the meeting.

# Yom Kippur Will Be Observed Here By Jewish People

At midnight on Friday, October 11, Yom Kippur, the day of atonement, will commence, when Jewish congregations in the city will observe the annual day.

One of the most holy days in the Jewish year, Yom Kippur will be observed by fasting and prayer, as the people prepare to embark upon the joys of harvest.

Congregations of Beth Shalom and the Jewish Center, in Edmonton, will join with other Jewish congregations throughout the world in observing the holy day.

# Council Talks Prevention Of Juvenile Crime

Contending that preventive measures should be taken to avoid an increase in delinquency and crime similar to that which followed the past war, members of the group work division of the Edmonton Council of Social Agencies will continue and increase their work among the young people.

This decision was made at a meeting of the group division Tuesday night in the Y.M.C.A. under the chairmanship of T. Stephens.

Considerable discussion took place regarding the merits of continuing work among the young people, and it was felt that "a drastic effort should be made by organizations to handle all the work required of them, and to continue their social work as well, in an attempt to forestall a possible increase in delinquency at the close of the present war."

# Rehabilitation Of Returned Men To Be Discussed

To lead a discussion on the question of rehabilitation of returned soldiers, Walter S. Woods, Ottawa, chairman of the Veterans' Allowance Board, will arrive in the city Saturday. A meeting will be held at 10 a.m. in the hall of the Chamber of Commerce when representatives of the Veterans' Bureau will discuss the matter.
